(Office Use Only)
_____ Rec'd Initials/Date

The Housing Inspector is not required to ignite the heating plant, use a ladder to observe the condition of roofing, evaluate inaccessible or concealed areas or disassemble items. The inspection does not address formaldehyde, lead paint certification or abatement, any airborne gas (radon), asbestos, insect and animal pests or hazardous waste. This inspection is not a FHA or VA inspection or appraisal. The certification is valid for one year from the date of issue unless alterations or remodeling have occurred.

This certificate does not indicate compliance with any inspection program other than that of the City of Crystal. This inspection has been made by the City as a public service and does not constitute any representation, guaranty or warranty to any person as to the conditions of buildings inspected. The City of Crystal does not intend any reliance to be made on this inspection and does not assume any responsibility or liability in the inspection and certification of compliance.

Refund Statement

If the City of Crystal issued a permit for work to be performed and that work has not been initiated within 180 days of permit issuance, the permit is considered null and void.

To receive a refund of City permit fees, the City must receive written notice within 180 days of permit issuance that the permitted work has not been initiated and will not go forward. In such instances, the permit will be considered null and void and 80% of the City permit fee will be refunded by check (regardless of initial payment type).

No refund will be issued for a voided permit for failure to initiate the work after 180 days of permit issuance.
