

Crystal Parks and Recreation Improvements

Cemetery Fencing– The section of fence that divides the Crystal Community Center and Glen Haven Memorial Gardens Funeral Home will be removed. The fence has become overgrown with trees and vines and is difficult to maintain

Yunkers Park– Yunkers Park was updated last year with a new picnic shelter and some updated paths. During the month of August the focus on the park will be fixing some of the drainage issues that exist in the park.

Skyway Park– With an irrigated soccer field going into Skyway Park we will be removing the infield for the baseball field. While the ag-lime will be gone, the backstop will stay for pick-up baseball, softball or kickball games.

Community Center Landscaping– Landscaping at the Crystal Community Center was recently updated. Large/overgrown shrubs were removed, and replaced by lower maintenance plants. It was all accented with boulders and red wood chips.
